

December 17, 2024

The Honorable Mike Johnson  
Speaker  
U.S. House of Representatives  
Washington, D.C. 20515

The Honorable Hakeem Jeffries  
House Democratic Leader  
U.S. House of Representatives  
Washington, D.C. 20515

Dear Speaker Johnson and Leader Jeffries:

As you begin to turn your attention to the next Congress, I write in support of the bipartisan Task Force on Artificial Intelligence—which plays an important role in shaping U.S. AI policy—and urge you to allow its continuation in the 119<sup>th</sup> Congress. The Task Force’s critical work is key to spurring innovation, creating jobs, and importantly, keeping America globally competitive. It also exemplifies smart and efficient policymaking that will both protect consumers and generate business growth.

Countless sectors in every state are adopting AI technologies at breakneck speeds.<sup>1</sup> At a time when technology and the data that power it are making our lives healthier, more prosperous, and more convenient, bipartisan solutions in this arena have never been more important, particularly as foreign competitors continue to make significant investments in AI research and development—underscoring the importance of domestic investment and the Task Force’s work to ensure U.S. competitiveness.

I thank you for your leadership. BPC Action looks forward to working with you to advance bipartisan AI legislative priorities in the next Congress.

Sincerely,

Michele Stockwell  
President, BPC Action

Cc: Members of the Task Force on Artificial Intelligence
