Bipartisan Policy Center **Action**

What Can BPC Action Do for You?

At Bipartisan Policy Center Action, we are here to help you move policy ideas forward. Here are a few ways we can support you:

01	**Real-Time Political Intelligence**	BPC Action helps members and staff see how the other side reads an issue, find partners under the Dome and beyond, and set a bill up to actually move—and we provide technical assistance on the legislation you're working on. Think of us as a political litmus test: We help you anticipate how a proposal will land before it goes public.
02	**Find the Partner You Need**	Brokering relationships across the aisle is what we're known for—not just among members, but with stakeholders and key staffers.
03	**A Space Where Staff Can Talk Freely**	We convene and lead groups of bipartisan staff for the sustained dialogue needed to make headway on some of Congress' toughest long-term policy problems. These confidential forums let staff learn issues in depth, listen across the aisle, explore solutions, and build durable legislation.
04	**Support at Critical Junctures**	BPC Action arms members and staff with talking points, data, and strategy at every point in the legislative process—helping you communicate your work and building visibility for the issue and the leaders behind it.
05	**Events Built around an Outcome**	Roundtables, briefings, receptions—public or private. We design each one to suit a specific goal: bring staff up to speed on key topics, bridge divides among key constituencies, and build momentum behind an idea.

POLICY AREAS

Our team stands ready to collaborate with you on these policy areas:

- Artificial intelligence
- Economics, including fiscal and tax policy and retirement security
- Energy
- Governance, including elections, governing and civics, and structural democracy
- Health care
- Housing
- Human capital, including caregiving, workforce, and education

Have ideas but unsure how BPC Action can assist?

Reach out to Hello@BPCAction.org—we'd be happy to discuss. We look forward to working with you!
